

Citizens' Alliance For Property Rights Presents

THE WOLVING OF AMERICA

Current Gray Wolf Range and Southwest Recovery Area

Wolf expert Jim Beers will address the serious issue of wolf diseases and human health risks and the impact of the introduction of wolves in Montana and Idaho and what is planned for the State of Washington.

Jim will provide an honest assessment of the damage wolves are inflicting on big game populations, how many wolves there likely are in the Northern Rockies and how legal intervention by environmental organizations is very much to blame for the dramatic drop in elk, deer and other big game.

Jim will tell you what precautions you need to take to protect yourself from wolves when camping or hiking in the wilderness or just living in a rural area.

They are here now - see: <http://www.kxly.com/news/23588359/detail.html>

Jim Beers

Retired US Fish & Wildlife Service
Wildlife Biologist / Refuge Manager
Law Enforcement Agent
